DETAILED ACTION

Reasons for Allowance

1. Claims 1-10, 12-19 and 27-30 are allowed.
2. The following is an examiner's statement of reasons for allowance: the applicant's amendment filed on 09/29/2010 in conjunction with the remarks have been reviewed by the examiner in view of the prior art of record Roesse et al. (US 2003/0216143 A1), and it is agreed that the prior art of record does not teach the amended independent claim 1. Prior art Roesse fails to teach as in claim 1 as in where "...a node adjacent to the one or more VoIP devices andautomatically responding with a device identification acknowledgement message originating from the node" In the present invention, a VDI acknowledge message originating from the adjacent switching device (node) informs the VoIP device of the VLAN configuration in the switching device for VoIP traffic (not originating from a location server indirectly connected to user device as in Roesse). The present invention teaches a VoIP device having a indirect connection with the IP-PBX through the adjacent node (not a direct connection between the VoIP device and the network entry device as taught by prior art Roesse).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
